RE: TERMITE CERTIFICATION  
Railroad Depot Renovation  
Federal-Aid Project No. STP-8888-88(008), 103888 / 301  
City of Xxxxxxx, Xxxxxx County

Dear Mr. Vinson:

This is to certify that a licensed termite inspection firm recently inspected the existing building for the presence of or damage caused by the infestation of termites or other wood destroying insects. The inspection was performed on January 27, 2003 by Mr. John Q. Inspector of We Hate Bugs, Inc. A copy of the Mississippi Official Wood Destroying Insect Report is attached.

The report states that active termite infestation was found in all area of the building but that damage was limited to the southern portion of the building.

The City has had the building chemically treated to prevent further damage. The Construction plans include the removal and replacement of all damaged material as well as the installation of a termite baiting system to prevent future damage.

If you need additional information please feel free to contact me.

Sincerely

John P. Smith  
Mayor
